

Thank you for recieving my comment. The airwaves are Public property. Changing the ownership rules will not serve the public, in fact it will infringe on the public's right to diversity of information. We are so fortunate in our country to have free media, but if ownership law changes to squeeze out smaller companies, our media will be no more free than that of some of the dictatorial governments of the world. I urge you to vote against any change in media ownership rules on June 2nd. Respectfully,
Sabra Hull
